EDUCATION

- MCA (Information Technology) | 2020
Guru Gobind Singh Indraprastha
University, New Delhi
- BCA (Information Technology) | 2021
Guru Gobind Singh Indraprastha
University, New Delhi

TECHNICAL SKILLS

■■■■■	JavaScript
■■■■■	React
■■■■■	Redux
■■■■■	HTML
■■■■■	CSS
■■■■■	Node
■■■■■	Typescript
■■■■■	Material UI
■■■■■	GIT
■■■■■	ES6
■■■■■	Webpack, Babel
■■■■■	Restful API
■■■■■	Ajax
■■■■■	JSON
■■■■■	Bootstarp

CORE COMPETENCIES

Application Development	Agile Methodologies
Security Enhancement	Debugging & QA
Cross- Functional Collaboration	Performance Optimization
Responsive Web Design	Client Relationship Management
Requirement Gathering	User Experience Design

PROFILE SUMMARY

- Over **4 years of experience** in **frontend development**, specializing in **React, JavaScript, HTML, and CSS** within the **IT industry**.
- Drive the development of **interactive applications** in **React, Redux, Webpack, and Material-UI** as a **Product Engineer at Smart Energy Water**.
- Proficient in **translating design concepts** into **functional software solutions**, ensuring **high-quality web experiences**.
- **Developed application from scratch** and delivering it to the client, **encompassing comprehensive management** of all associated responsibilities.
- Led the **development and deployment** of an interactive application using **React, Redux, Webpack, and Material-UI**, resulting in a **25% improvement** in monitoring efficiency, a **15% reduction** in response time & **minimized downtime**, thereby enhancing **operational effectiveness** and **customer satisfaction**.
- Manage a team effectively, showcasing **leadership and team management** skills with a proven record of success.
- In-depth knowledge of **technical tools** with a keen interest in staying updated with **emerging technologies**.
- Spearheaded the **integration of multilingual support** for international users, leading to a **35% increase in user retention**.
- Strong **problem-solving capabilities** with a **collaborative approach** to **Agile development environments**.

CERTIFICATIONS

- HTML – SoloLearn (<https://www.sololearn.com/Certificate/CT-UHA4OSUF/pdf>)
- JavaScript – SoloLearn (<https://www.sololearn.com/Certificate/CT-OE9O9R1G/pdf>)
- React and Redux – SoloLearn (<https://www.sololearn.com/Certificate/CT-LJ27JIHI/pdf>)

WORK EXPERIENCE

Smart Energy Water, Noida | Jan'22 – Present

Product Engineer

Responsibilities:

- Driving the development and implementation of interactive applications using React, Redux, Webpack, and Material-UI.
- Collaborating with the design team to execute impactful UI/UX enhancements and innovative feature additions.
- Implementing multilingual support for international users, enhancing user experience and reducing language barriers.
- Managing a team of 4-5 members, administering application development, resolving issues, and ensuring seamless functionality.
- Performing client demos & ensuring the creation of reusable components & security enhancements.
- Managing API integrations & robust data flow for efficient system stability & reliability.

Achievements:

- Achieved a 20% optimization in page loading time by employing code splitting and lazy loading techniques with webpack.
- Collaborated with the design team to implement impactful UI/UX enhancements & innovative features, leading to a 35% increase in user retention & a 20% rise in customer lifetime value.
- Enhanced the user experience for international users by integrating multilingual support, resulting in a 35% increase in user retention and a 20% decrease in support tickets related to language barriers.
- Implemented advanced code splitting and lazy loading techniques with webpack, resulting in a 20% decrease in page loading time.

Responsibilities:

- Designing and developing visually appealing and intuitive user interfaces for web applications using technologies like HTML, CSS, and JavaScript.
- Ensuring that web applications are responsive and compatible across various devices and screen sizes, by employing techniques like media queries and flexible layouts.
- Collaborating with Designers: Working closely with UX/UI designers to translate design mockups and wireframes into functional front-end code, ensuring consistency and fidelity to the design vision.
- Lead coordination efforts with backend developers to integrate Rest APIs, ensuring robust data flow and system stability.
- Engineer a seamless user interface for an electric scooter e-commerce store using React.
- Conduct testing, debugging, and fix bugs to ensure smooth application functionality.

Achievements:

- Coordinated with backend developers to integrate Rest APIs, ensuring a robust data flow and achieving a 5% enhancement in system stability and reliability.
- Developed a smooth and seamless user interface for an electric scooter e-commerce store using React.
- Incorporated Maps API and geolocation features to improve the user experience, resulting in a 20% decrease in user friction.

Responsibilities:

- Conducted thorough testing and debugging of front-end code to identify and fix issues related to functionality, compatibility, and performance across different browsers and devices.
- Streamlined pickup route planning by integrating efficient algorithms and geolocation technology.

Achievements:

- Implemented Max Change, a recycling platform using React and Node.js, boosting community participation by 25% and diverting 1,000+ tons of waste annually.
- Streamlined route planning with efficient algorithms and geolocation, cutting route time by 30% for improved delivery and satisfaction.

PROJECTS

Project Name: Show Time Web App

- Build using React
- Major Functionalities including - Search Bar, Pagination, Cards, Tiles, Reusable Components, Menus, Routes, Optimizations
- Data is fetched through API Calls (axios and fetch)
- Used Material-UI and Material-UI icons for UI development.
- **Project is live at:** <https://itshowtime.netlify.app/>

Project Name: Shopping List

- Shopping List is a web app in which the user can save the list of items, Build using React and Material icons
- Work with mouse as well as keyboard
- Fully responsive
- All CRUD (Create, Read, Update, Delete) Operations Performed
- Project is Live at <https://my-shoppinglist.netlify.app/>

Other Projects

- Calculator
- React Covid Tracker
- Find My Number (Game)
- Animated Thermometer
- Websites
- Temperature Converter

PERSONAL DETAILS

Address	New Delhi, 110046
Date of Birth	4 th November 1995
Languages Known	English and Hindi
